### **The 7-th International Research and Practice Conference**

## **“Contemporary World Tendencies in Production and Application of Biological Plant Protection Agents**

**September 25-27, 2012, ARRIBPP, Krasnodar**

The Conference will be held at All-Russian Research Institute of Biological Plant Protection (Russian Academy of Agricultural Sciences) which is situated in Krasnodar, the capital of Krasnodar Region that is the leading agricultural region of Russia, being dominant in production of grains, sunflower, sugar beetroot, corn, fruit crops and grapes. In recent years, the Region Administration has paid special attention to biological control in plant growing and the development of organic farming.

The Conference gains special status due to the progressing tendencies in the realization of the cardinal role of biological plant protection in the preservation of biological diversity, rehabilitation of biocoenotic regulation, obtaining natural products, protection of environment, as well as growing commercialization of the production and application of biological plant protection agents.

The Conference Program specifies the discussion of the latest world progress in the field of the production and application of biological plant protection agents.

Within the framework of the Conference, we are going to hold:  
the plenary session, devoted to biological plant protection;  
the sections on taxonomy and application of entomophages, entomopathogenic microorganisms and the organisms with fungicide activity, pheromones and other biological pesticides;  
the exhibition – presentation of novel biological and biologically rational plant protection chemicals.

The Conference will gather together scientists, practitioners and private entrepreneurs for the discussion of priorities and resources aimed at the solution of scientific, practical, economic and environmental problems. The forum will make it possible for the participants to reveal zones of mutual interest. The contacts at the Conference will form the basis of the further fruitful collaboration for partners. Producers of plant protection agents will get opportunity to demonstrate their products.

The publication of the Conference Proceedings is planned.

**Registration fee:**

- for participants from Russia and CIS countries – 1000 RUR,
- for foreign participants – 250 EUR.

After the submission of the Conference Application Form, the contract for the participation in the Conference and the invoice for the payment of the Registration Fee will be sent to the participants. Provisions for the exhibition – presentation will be coordinated as Application Forms become available.
